I Geology

1. **T.M. Mahadevan**
Transect Studies - An Integrated Approach
to Imaging Deep Lithospheric Structure
And Interpreting Continental Evolution I
2. **M. Ramakrishnan**
Tectonic Evolution of the Granulite
Terrains of southern India 35
3. **T. Radhakrishna and M. Ramakrishnan** U,dupi-Kavali
Transect Across South India 45
4. **S.M. Naqvi**
Metasediments found along The Sub-Transect from Goa-
Raichur-Bagalkot to Kanyakumari, Southern Peninsular
India 63
5. **X.R. Raghu Nandan and X.T. Vidyadharan**
A Status Note on the Geology along
the Kolar-Raichur-Goa Transect 69
6. **T.C. Devaraju., K. Laajoki and B.K. Wodeyar**
Metasediments of the Deep Crustal
Section of Southern Karnataka 91
7. **C. Srikantappa**
High Pressure Charnockites of the Nilkiri Hills, Southern
Inddia 95
8. **E.B. Sugavanam and X.T. Vidyadharan**
Structural Patterns in High-Grade Terrain in
Parts of Tamil Nadu and Karnataka 113
9. **R.A. Wiebe and A.S. Janardhan**
Metamorphism of the Oddanchatram Anorthosite, Tamil
Nadu, South India
