

		<p>issues and shall be addressed nationally. We request DST to clarify whether these water challenges will be covered under present scope of work.</p> <ul style="list-style-type: none"> As per short listed sites for Research on Technology Solutions for Reject management from water related technology - Rajasthan and Tamilnadu are the two states identified. However location details (district/block/villages) are not identified, Please clarify. Under Scope of work It is mentioned that Implement pilot projects to provide holistic solutions on turnkey basis for water requirement. We understand turnkey basis as Evaluation of existing situation, identification of suitable solution, design and implementation. Request DST to clarify on our understanding and elaborate on the issue. Engagement of agencies for providing solutions for water challenges. Whether the engagement of agencies shall at national level or region level or subject specific/ Water Challenge specific. Request DST to clarify. 	<p>analysis of the water availability, in terms of both quality and quantity, for addressing the issue. As mentioned in the EoI, at present (Phase-I) the facility to be put up should cater to 10,000 people for domestic requirement at 43 liters (drinking and other uses) per capita dily (LPCD). The firm interested to participate in the programme can plan capacities accordingly and chose multiple water challenges and offer solutions as per their level of competence. In any case, at this stage only response to the EOI are being sought and later the necessary details can be given.</p>

4	S. Arora	Whether the proposal of EOI can be submitted through email?	Submission of proposal alongwith necessary documents may be done through Email by Nov 30. But the hardcopies of the same may be sent by Speedpost/courier to CDC, IHC, Lodhi Road, New Delhi soon after forwarding the same through Email.
5	Shivam Water Treaters Pvt. Ltd.	<ul style="list-style-type: none"> • Clarification sought about raw water quality, heavy metal contaminants and their level including Excess salinity : salinity level? TDS? TSS? pH ? • Clarification sought about Plant Capacity : Total people :10000 Municipal water per person : 40 LPD Per person water : 3 LPD So for 10000 people : 43x10000 = 43000 LPD So Plant's capacity is 45,000 LPD; is it suitable? • Details for location for installation of plant ? 	This has been clarified at Sl. No. 2 and 3.
6	SMEC India Pvt. Ltd.	<ul style="list-style-type: none"> • confirm that the Pilot Projects to be implemented for holistic solutions would be for two identified villages from 50 chosen sites • Clarify the population doesn't touch the figure of 100000 in estimated / projected time period, how upscaled model shall be verified ? Please clarify the scope for upscaling the successful pilot trials for different water basins? • confirm the consultants scope in implement-tation 	This has been clarified at Sl. No. 2 and 3.

		<p>of pilot project?</p> <ul style="list-style-type: none"> • confirm the ongoing status as per Time Schedule of Plan document? • Can extension of 10 days time for the submission of EOI be given? 	<p>It would not be possible to extend the deadline for responding to EOI.</p>
7	<p>Department of Microbiology, Selvam Arts and Science College, Namakkal, TamilNadu</p>	<p>Whether institutions can send the EOI or is it only for companies</p>	<p>Submission of proposal will be considered as per the eligibility criteria indicated in the EOI.</p>
8	<p>Ernst & young Private Limited</p>	<ul style="list-style-type: none"> • Are the consultants expected to find solutions to all the 25 challenges identified in the EOI? • Are sites already selected? Would they be spread across country and will it cover surface water sources especially rivers? • Is the water quantity, hydrology, and quality, expected future water consumption related already available or it needs to be collected as a part of study? 	<p>It is proposed to just enlist the names of the firms/ agencies, interested to participate in the Programme. The clarifications that sought will be fully addressed in the Request for Proposals (RFP) a detailed bid document being prepared within next 2 weeks. The intent to participate may be submitted in addressing a single or multiple water challenges listed in the 'Plan Document'. As on now one particular water challenge/ problem will be chosen in a location covering 10000 population (approx). So 25 challenges, each in one or more locations will have to be put up. This will be up-scaled to cover 100000 population in 2 locations (one within same water basin where facility for 10000 has been put up and another in site neutral or to other water basin). The locations will be spread over the country. Other aspects may not be quite relevant at this stage. At this juncture, the intent is to have a list of firms/ agencies based on the advertisement.</p>
9	<p>Aquadrop</p>	<p>Has a solution for point-of-use (and larger bodies of</p>	<p>May respond to the EOI alongwith relevant documents.</p>

		water) drinking water treatment to rid it of harmful algae and bacteria. Whether the solution can be used by DST.	
10	National Metallurgical Laboratory, Jamshedpur	What documents need to be submitted if a CSIR laboratory would like to submit an EOI in collaboration with a national and international agency.	The proposal alongwith required documents may be submitted as indicated in the advertisement.
11	Gram Vigyan Paryavaran Sansthan	Request to send details of EOI?	Details of EOI have been published in the advertisement of 15 th November, 2009.
12	SAI Consulting Engineers Pvt Ltd.	Where can the EOI document of the said subject be submitted from the following addresses: <ul style="list-style-type: none"> ○ Head, Mission Cell (W&SE), DST, Technology Bhavan, New Mehrauli Road, New Delhi-110016 OR ● Head (Support Services) Consultancy Development Centre Core 4B, 2nd Floor, India Habitat Centre, Lodhi Road, New Delhi-110003 	As stated in the EOI, the deatils/papers are to be submitted to CDC at India Habitat centre, Lodhi Road, New Delhi. However, the details can be sent as attachment with Email, but hardcopies be dispatched to reach CDC on or before Nov 30.
13	Gerind Technology India Pvt. Ltd.	Wish to Introduce and provide water related technology/ solution.	May submit EOI alongwith required documents as indicate in the advertisement.
14	Shrirang Golhar	Wish to share his ideas on this projects?	As above
15	Dr. S.K. Trivedi	Whether relaxation in turnover indicated in the eligibility criteria is possible?	Relaxation would not be possible and the criteria shall be as indicated in the advertisement.
16	Wetson Solutions (India) Pvt. Ltd.	<ul style="list-style-type: none"> ● Can the turnover and experience of present company be considered for eligibility criteria? ● Website URL for detailed Plan? ● Can we have a consortium of consultants and/or EPC contractors? 	Parent company's experience and turnover including consortium can be considered if documentary evidence of relationship/ working arrangement is provided.
17	IL&FS water Ltd.	<ul style="list-style-type: none"> ● While some outline 	The clarifications will be fully

		<p>information on the packages is presented in the plan document, it would be very helpful to solution providers if a job specification with timelines for each package is prepared and informed, so that they are able to have better idea of scope of work, timelines and resources to be deployed by them for the project?</p> <ul style="list-style-type: none"> • Please clarify, whether it is mandatory to quote for all research and implementation packages? Also, request to clarify which of the 25 challenges is covered in each package? Inform the names and locations of 50 villages for the implementation of pilot phase, along with the challenges faced by each village. • Since the type, precise locations, and extent of data gathering is not well specified, we are unable to completely estimate the equipment, manpower, resources and time required for the same at present. Responsibility of solution providers across all research packages be clearly indicated. • The data generation such as collection and analysis of water samples, conducting socio-economic or hydrology or any other surveys for data generation is not in our scope. All our work will be based only on data 	<p>addressed in the Request for Proposals (RFP) a detailed bid document being prepared within next 2 weeks.</p> <p>The aim is to address various issues and scope of work covers the water challenges listed in the Plan document. The tentative list of places/locations (61) have been listed in the report and a few of them will be finally selected. The relevant data concerning these locations will be made available in the Request for proposals (bid documents), which is under preparation. However, the Firm/agency intending to quote may also carry out detailed analysis of the water availability, in terms of both quality and quantity, for addressing the issue. As mentioned in the EoI, at present (Phase-I) the facility to be put up should cater to 10,000 people for domestic requirement at 43 liters (drinking and other uses) per capita dialy (LPCD). The firm interested to participate in the programme can plan capacities accordingly and chose multiple water challenges and offer solutions as per their level of competence. In any case, at this stage only response to the EOI are being sought and later the necessary details can be given. Query on many other aspects may not be quite relevant at this stage.</p>
