Human embryonic stem cells		

Please note that research on humans, human embryonic stem cells, vertebrates, decapods, cephalopods, pathogens and genetically modified organisms needs authorization and/or notification in Switzerland and India.

### PART 2 – SCIENTIFIC & TECHNICAL INFORMATION

#### 1 Summary (about ½ page)

*Briefly describe the objectives, the research plan, and expected results of the proposed activities. Explain why the visit to this particular laboratory/institute/institution is important. Please use non-technical language.*

#### 2 Background & Aims (about ½ page)

*Briefly describe the study interests with respect to knowledge in the field and open questions that motivates this proposal. Conclude with a statement of objectives.*

#### 3 Research Plan (1 to 2 pages)

Please describe the technologies to be acquired and the experiments/activities to be performed during the proposed visit. Describe the relationship between your main scientific activities and the research environment, strengths and expertise of the host laboratory/institute/institution. Briefly discuss the expected outcome and demonstrate the potential for follow-up interactions.

#### 4 List of milestones

*Outline major milestones of the proposed activities.*

Milestones	Associated activities	Expected date (measured from the project start date)

*Please insert additional rows into the table if required.*

## **5 Ethical, safety and regulatory issues**

*Does the proposed work raise ethical, safety or regulatory issues? If yes, how will you deal with it? Clearly indicate!*

### **ATTACHMENTS**

In addition, please provide:

- a. Brief curriculum vitae of visiting scientist
- b. Publication list
